WEAK PLACES IN COUNTY TO OFFER BOND ISSUE TO STATE EARTH'S CRUST

New Series of Islands Rising Near Japan and Philippines

EUGENE, Orc. - (Associated) Press) -There are several especially Friday. weak places in the crust of the earth, said Dr. Warren D. Smith, professor of the University of Oregon here, in a discussion of earthquakes.

"One of these," he explained, "is in length. the Straits of Messina, between Sicilly and Italy, where in 1908 a very destructive earthquake took place. Another is the junction of the Pacific are with the Indo-Malayan are. This is in the region of Java and the Philippines. Some exceedingly devastating earthquakes have taken place in these regions. Another place is the Chilean coast and still another is slong the San Andreas Rift in Cali-

fornia. "Perhaps the most unstable part of the earth's crust today is in the north-west part of the Pacific, bordering the great Tuscarora Deep. A broad belt of folded rocks includes the entire archipelago of Japan, the Philippines and New Guinea in the western Pacific, and this belt runs right around the Pacific ocean. This is the first major feature of the Pacific.

"East of this region is the great trough known as the Tuscarora Deep. signed. frough known as the Luscatora Deep. To the south of this, Just east of the Philippines, is a still greater deep, which is a continuation of the one east of Japan. With a depth of slightly over six miles, this is the deepest place known in any ocean. To the east of this trough is a submerged mouatain range, in fact several, but one in particular which apparently is rising and some day will form a new festoon of islands paralleling Japan and the Philippines.

"According to the latest investigations in the Pacific, great thrusts, due to accommodations in the outer shell of the earth, are taking place in the direction of the Asiatic continent."

Why Fear Child-birth

EXPECTANT mothers do not undergo useless suffering any longer, and baby's birth can be Made gloriously easier.
Mrs. Wm. Flack, 115 N. 12th St.,

"Mother's Friend" is externally applied about the abdomen, back and hips. It penetrates wonderfully, and in this way allows the muscles and ligaments to relax easily and readjust themselves to the changes during expectancy and at child-birth.

Use "Mother's Friend" as our mothers and gramimothers did. Don't wait, start today and meanwhile write to bradhed Togulator Co., BA-73, Atlanta. Ga., for free booklet containing valuable information every expect-ant mother should have.

"Mother's Priend" contains no narcotics or harmful drugs. It is safe. There is no substitute. Avoid useless greases and plain oils. Start using "Mother's Friend" now—the sooner the better. "Mother's Friend" is sold at all good drug stores-everywhere.

LURE OF THE UNKNOWN

RADIO fan writes: "In the last month I've heard the latest in radio-neutrodynes and super-hets and all the other hifalutin' sets. It strikes me that radio is becoming too perfected and certain for real enjoyment.

"My set is antiquated, a stage coach. Twe tinkered with it and changed it so much that I don't think the best radio engineer living could tell me what sort of a set I have. But I wouldn't trade this old stagecoach for all the super-sets in the universe.

"A lot of people prefer the sets where, by logging and adjusting dials at certain numerals, they can get any station they | + want, at almost any time, without a lot of preliminary tuning. That pleases them, maybe because it makes them feel they have mastered the mystery of the air.

"But not for me! I prefer my old set that makes me do a lot of fishing to get anything at all. I enjoy the thrill of victory when delicate adjustments finally bring in a clear concert. And there's another thrill, of suspense, waiting for the song or orchestra to subside and then the revelation of whether the unknown station is across the continent or over in the next county."

D ADIO has two classes of followers—masters and fishermen. N One gets the sense of power and dominion that comes with exact, certain results. The other is a gambler, subject to the laws of chance, as surely as the angler casting a fly or plug into unknown waters.

Fishing would be a dull pastime if we got a strike every time we tossed a baited line into the river or lake. There's no fishing thrill like the strike that comes after hours without any results at all. What sportsman wants to know, in advance, the size fish he has hooked? Land him first, then learn,

FTEN all of us wish we could know the future - rend the mysterious veil and learn what's in store for us. But how drab and unexciting life would be if the future were not unknown, uncertain and mysterious in its possibilities!

Providence is kindly to us in veiling the future. There's an adventurous thrill and alluring element of gambling when we plod ahead into the unknown.

MRS. MAY BALLEW is has given me blessed relief and I simply cannot say enough for it.'

This is another surprising statement received by the Plant Juice Man, when at Houston, Texas, recently. It was made by Mrs. May Ballew, living at 2602 Jarrell Street, Houston.

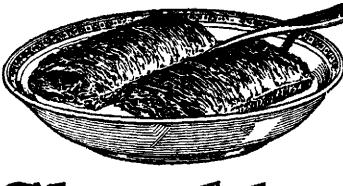

"Those fainting spells came on so suddenly that I was actually afraid to go dewn town," Mrs. Ballew con-"And I often had dizzy spells with black spots before my eyes. My stomach was all disordered-so sore I could hardly touch it-and all my food seemed to form a lump in my stomach. In addition, I had awful headaches and pains in my back and shoulders and was so nervous 1 couldn't sleep. I tell you I was simply in misery and thought my life was wrecked and didn't know what to do, for it looked like nothing would help me.

"Then, a friend told me about Plant Juice and I started taking it and it has given me such blessed relief that I cannot say enough for it. My stomach has improved so much that I can eat anything and not suffer afterward-never have the lump in my stomach or that awful soreness. I have gained five pounds. And I have been relieved of the nervousness and sleep well; headaches and dizzy spells are gone, and the pains in my back and shoulders have disappeared. In short, I am simply feeling like an entirely new woman and am just so grateful to Plant Juice and gladly indorse it to everybody."

Plant Juice is sold in Lima at the Hunter Brug Stores, 49 Public Square, and Main and Wayne streets and at the Argonne Drug Store, opposite postoffice.—Adv.

Elderly People Need More Iron in the Blood

To Give Added Strength, Vitality, and Greater Power of Resistance Against Disease.

RON is constantly leaving the body, especially toward the period of middle age and you must make up for this iron deficiency if you want to escape disease and be strong and well. When the iron in your blood runs low, signs of old age creep into your system. If there is not enough iron circulating

of old age creep into your system. If there is not enough iron circulating the blood-stream becomes thin, pale and watery, the body weak and rundown. In such cases ordinary iron-containing foods seldom supply a sufficient quantity of this important element to make up for the waste so that many physicians now prescribe a concentrated form of organic fron—Nurated fron—which contains iron like the iron in your blood.

Actual blood tests show that a tremendously large number of people who are weak and ill lack iron in their blood. If you are not sure of your own condition, go to your doctor and have him take your blood-count and see where you stand or else make the following test yourent walk without becoming tired; next take two five-grain tablets of Nurated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained. By enriching the blood and creating new red blood-cells Nursted fron strengthers the nerves, rebuilds the weakened tissues and helps to instill renewed energy and power into the whole system.

Unlike the older inorganic fron products, Nursted Iron is easily assimilated, does not injure the teeth, make them black nor upset the stomach. The manufacturers guarantee successive and entirely satisfactory results to every purchased or they will refund your money. It is dispensed by all good druggists.

FINDINGS OF BOARD DO NOT SUPPORT O'ROURKE

(BY HENRY L. LARRELL)

NEW YORK - (United Press) -- Investigation into charges by Tom O'Rourke, that Tex Rickard works with scalpers in the distribution of tight tickets has been completed by the New York boxing commission.

The findings will be appounced within a few days, and, according to reliable information, will not support the charges of

The result of the investigation may be made public Friday, as it is improbable the commission will wait to see what happens at Albany before it makes its announcement.

While the commission is expected to announce it found nothing in the reports of the Dempsey-Firpo fight to indicate Rickard had turned over \$155,000 in tickets to scalpers, it probably will; state it found some loose methods of handling the tickets and that l corrective measures have been taken.

George Brower, chairman, said some time ago, the commission would prosecute if it found anything in the investigation | warranting action by the district attorney. He said the commission weald punish violation of its rules by revoking licenses of promoters found guilty and also that if the investigation showed "some one should be vindicated he will be vindicated."

Rickard has been warned about activities of ticket scalpers around Madison Square Carden. He contends it was not his fault, since police have authority to stop sale of tickets in side streets around the Garden.

The commission, however, told Rickard it is going to hold promoters responsible. There are ways of stopping scalpers and unless promoters do it they will have their licenses revoked and their places closed.
